
Entities which transact with the Government should register for and set up Corppass. Corppass is available for Singapore Registered Entities (both NRIC/FIN users and Foreign ID users) and Foreign Registered Entities.

Please also note that starting from 11 Apr 2021, you will be required to login to government digital services for businesses (G2B) using Singpass instead of Corppass. Find out more: <https://go.gov.sg/corporate-login>

Before you begin using Corppass, here are some information that will get you started.

Key Corppass Terms

1. Digital Service Access

What your entity's Corppass Administrator/Sub-Administrator assigns to you as a user

2. Digital Service Roles

Specific roles created by some digital services, that must be assigned to users before you can transact with them

3. Additional Agency Check

After logging in, some agencies may require additional checks before you can access specific digital services. For more information, visit the digital service website or contact the agency's helpdesk.

4. Access to All e-Services

The option to assign to users, upon registering for and creating accounts.

An account with 'Access to All e-Services'...

Has access to the **majority** of digital services on Corppass

- Corppass Admin / Sub-Admin need not individually select and assign digital services to users
- Includes access to a growing list of digital services on Corppass

Will be automatically assigned a **default role** (if applicable)

- Default role can be changed by overwriting it with a new role assignment
- Multiple roles can be assigned to the same user. Select the digital service and assign each role, one at a time

Will need to set up **additional details** on Corppass for selected digital services

- E.g. CPF e-Submission, SSG-WSG E-Services. Click [here](#) for full listing
- Complete the set up and manually assign to users to allow access

Note: If your entity needs greater control over access rights to digital services, you can unselect the option during registration or when creating Corppass accounts, and assign selected digital services to specific users after log in.

Digital services on boarded Corppass

*Default Role
